

REGISTRATION NOW OPEN: CGA M-1 & ASSE 6015 CERTIFICATION

Registration is now open for CGACB's certification for bulk compressed medical gas (CMG) supply system personnel. **This is dual certification to CGA M-1, Standard for Medical Gas Supply Systems at Health Care Facilities and ASSE 6015, Bulk Medical Gas Systems Installers.**

Who should seek the CGACB certification?

Service technicians, managers, and engineers who design, install, and maintain bulk CMG supply systems at hospitals and other health care facilities.

What are the prerequisites?

Candidates must complete the exam application, remit their registration fees, provide a copy of the table of contents from their company standard operating procedures, and provide documented proof that they have successfully completed training that complies with either CGA M-1 or ASSE 6015.

What will the exam cover?

The CGACB certification will provide a comprehensive evaluation of a candidate's knowledge of the process of designing, locating, installing, commissioning, maintaining, testing, removing, and documenting work on a bulk CMG supply system in accordance with CGA M-1 and ASSE 6015. The material was developed by a team of subject matter experts and validated in accordance with accepted industry practice. A detailed exam outline is available at www.CGACB.org.

How should I prepare?

This is an open book exam. Candidates are encouraged to bring:

- NFPA 99, *Health Care Facilities Code* (2018 ed.)
- NFPA 55, *Compressed Gases and Cryogenic Fluids Code* (2015 ed.)
- CGA M-1, *Standard for Medical Gas Supply Systems at Health Care Facilities* (4th ed.); and
- 21 CFR parts 210 and 211, FDA Current Good Manufacturing Practices.

For all exam forms, policies, and general information, please visit www.CGACB.org.
